## **Questions for consideration**

### **1. What does Margai mean by African Unity being a “longstanding” aspiration of the peoples of Sierra Leone?**

Margai refers to a deeply rooted belief in the potential for unity among African nations, which has been a hope and goal for Sierra Leoneans over time.

### **2. What obstacles to African Unity does President Margai identify?**

Margai implies that the obstacles are mainly the temporary differences in approaches among African states, which he believes can be resolved through dialogue and cooperation.

### **3. How does Margai define the temporary differences among African nations?**

He suggests that these differences are not permanent divisions but rather challenges that can be overcome as states work towards common goals.

### **4. Why does Margai believe the Addis Ababa meeting is crucial for African Unity?**

Margai sees the meeting as a pivotal moment for leaders to reaffirm their commitment to unity, which he believes is essential for the continent's development and success.
